“ Barbara was a member of our TOPS group in Salisbury. Knew her for years. She was a wonderful caring person. Her desserts were great and she made ocrá pickles that I loved. She would share her time, recipes and anything else she had with everyone. She will be forever missed by me and our entire group. I had moved the end of 2019 to SC and missed seeing her every Monday morning at our meetings. She always had a smile.

“ Barbara Denton engraved her place in my heart with her kind deeds to me and my family. When my husband died, she sent a homemade dessert to my home for the wake. From time to time in the ensuing years, she dropped by with fresh vegetables. Her last gift to me was a carton of fresh eggs that she gave me in the church parking lot last summer. Each encounter with Barbara was a moment of healing to my heart. Her kind smile and encouraging words always reminded me that I am not alone. I shall miss her greatly.

So very sorry to hear of Barbara's passing. She was the first person I met when interviewing for a position in the Chem Lab at Fiber Industries. She had the kindest smile and the most beautiful eyes. Barbara took a young 18 year old under her wing. She taught me everything about the lab. We became friends away from work as well. She taught me how to can and freeze food, make pickles, jelly and how to plant a garden. She went on to teach me how to sew. I ended up making clothes for my entire family. We spent vacations together at Carolina Beach, shared baby showers, births, birthdays, mourning our parents, our children growing up and having children of their own. She always did whatever she could for those in need. I am proud to have called her my mentor, teacher and most importantly my friend for 57 years. May God give comfort and peace to your family. With love, Carol McCall
