“ Once, many years ago, there was a simple handwritten sign on a bulliten board in Tyro asking for someone to help work in a greenhouse and I called the number and was given directions to Click and Betty's over on Jubilee Road. Upone arrival and after a few minutes of chatting I was given the task of transplanting petunia's into pots. At the end of the day, Miss Betty (as I always called her) told me that if I came back in the morning the job was mine.

*I worked for Click and Betty until they sold the greenhouse and learned more from them about life, partnership and love than any couple I have ever met. They were some of the kindest and most giving people I ever have met and the world has definately lost one of the greatest women I've ever known.*

*I guess you could say that they planted a seed in me, and turned me into the gardener I am today and I will never forget Miss Betty or Click, for they taught me the importance of planting seeds and watching what grows from them.*

*God Bless all of you....your Mom will be greatly missed.##imported-begin##Rebecca Sinnott##imported-end##*
