“ Coach Maphis was the most important influence on my husband, Larry Beightol. He taught Larry that fundamentals were the most important thing that a football player needed to know. Larry practiced Coach Maphis's philosophy through his 43 years of coaching football. Coach Maphis was a legend to the men that he coached and they never forgot him.

“ *I was one of Coach Maphis's Boys on the football team @ Catawba from 1960 – 1964. I believe Coach came to Catawba during the fall of my sophomore year. I feel very privileged to have been a part of those very special years and I have to tell you what a great inspiration he has been in my life. I am so proud to have been “one of his boys”. He gave me confidence in myself and made me feel I could do anything I set my mind to. He did that by believing in me. I've carried that with me throughout my life and have tried to instill that sense of self-worth, character and confidence into my kids, my grandchildren, my work and all that I do. I now watch my kids/grandkids striving to be the best they can be at whatever they do and do the right thing- that came from the foundation he laid for me on the practice field at Catawba....so Thank You, Coach, for doing what you did and being who you were- your legacy carries on.*
