

## Herbert Snellings

March 18, 1941 - February 5, 2024

Dad loved the morning. He loved the sunrise and the possibilities of a new day, a new road trip, a new adventure. He was the ultimate dreamer- always looking for new opportunities. There was always something on the horizon to contemplate and discover.

When others his age liked to remember the past, Dad always was excited about the future. He was a genuine optimist who saw the best in every person he met. He moved toward energy and light.

Dad always believed there was more than the physical and spent his time pondering the philosophical. Our conversations were always about ideas.

Dad's mother taught me the words of Mary Baker Eddy, "There is no life, truth, intelligence or substance in matter; all is infinite mind and infinite manifestation." She also taught me that God is Love.

May dad's journey to the infinite continue in love and light. We will keep the gifts you have given us in our hearts.
