“ Jim has been a wonderful friend since we both started at AP Tech/AGC at about the same time (his employee number was one before mine). Initially, we were in different departments but later we worked together in Quality Assurance. He was the go-to guy in QA. He tirelessly worked with customers, provided needed customer data for Management, QA, and Production and helped resolve customer issues. After we wore him down in QA, he went back to Production. He was still the go-to guy there. It was sad to see him leave AGC in an ambulance. He was greatly missed. Since he wasn't able to return to work, he was able to come to my retirement and see his work buddies. I would visit with Jim and each time he would say what he missed most about AGC was the people...his friends.

My condolences go out to Nancy and the Dumire family. Jim will be greatly missed.
