“ *Laura and I were very close in middle school. We would hang out hour after hour in her room. If I wasn't at her house she was at mine. We would listen to the radio waiting for our favorite song to play and then hurry and push record on the cassette player so that we could listen to it over and over again and write down the lyrics.. We would then laugh at what we thought the lyrics were. Her parents always made me feel like their own. Up into high school our interests differed which made us spend less and less time together but she never left my heart, not then and definitely not now. Her smile and personality was contagious and she always seen the good in ever situation and every person. She never had anything bad to say about anyone and even though we didn't keep in touch I know deep down if I ever needed anything I could have asked and she would have helped. We love you Laura and we lost an angel way to early. Watch over those boys and that gorgeous young lady. Fly high sweetie. You are one of a kind and no one could ever take your place in my heart.*
